Rail and Road Transport v2

Sea and Road Transport

Sea, Rail and Road Transport

The map illustrates a network of transport routes across Europe. A dark blue line traces a path from the North Sea, through the Baltic Sea, and towards the Black Sea. Red pushpins are placed at key locations: Hamburg, Szczecin, Poznań, Wrocław, Katowice, and Rzeszów. Green lines represent rail routes, while yellow lines represent road routes. Major cities like Berlin, Warsaw, and Kraków are also visible. The map includes labels for various European countries and cities, as well as road and rail network identifiers.
