

Formula for umbrella cooperation between projects dealing with green transport

Umbrella Seminar, Stockholm,
8 September, 2011

Project part-financed
by the European Union
(European Regional Development Fund)

Towards an integrated transport system in the Baltic Sea Region

The understanding of umbrella function

Source: www.promoslogos.com

- **Purpose:** synergies between green transport projects and pan-Baltic transport development initiatives towards 'BSR blueprints' (cf. the BSR Programme document)
- **Scheme:** inspiration for corridor projects from the overall BSR level → own work → generalised transport development solutions, customised to the BSR specificity
- **Actors:** relevant projects in the BSR, North Sea & Barents Sea programmes + interested projects within CBC programmes
- **How:**
 - joint debates on horizontal measures to help create an integrated transport system in the BSR
 - joint dissemination of outcomes to the shared target audience
 - harmonised strategic documents (action plans, manuals, guidance reports etc.)

Regular umbrella meetings

Source: athome.allentate.com

- Progress in working with the green corridors concept
- Reviews of the Baltic Transport Outlook work
- Innovative transport solutions
- Joint dissemination of outcomes
- Input to the TransBaltic regional action plan - accumulating outcomes at the pan-Baltic level
- Cooperation with the North Sea Region Programme and cross-border projects
- Approach to the upcoming thematic cluster offered by the BSR Programme
